Full brief: Spotify-Company-Brief-2026-11.pdf

Bottom line. Spotify is in the best financial shape of its 20 years (Q3 revenue €4.97B, +16%; 13.5% operating margin) and is chasing 1B users and a 20%+ margin by 2030. Brand is product here, but hiring is lean: 77 open roles, one in design, none in brand.

ANGLES THAT LAND

> Data turned into culture (work people wanted to share). A brand system plus a campaign that bent it on purpose. Motion and social craft. Work adapted across many markets.

TALKING POINTS

- **Shareable moments:** show where data became a story people posted.
- **Time Well Spent:** design that earned attention, not grabbed it.
- **Fans and artists:** designing with an artist, not just for a client.
- **AI with consent:** where AI belongs in your process, and where it doesn't.

THEIR WORDS

Wrapped	Year-end personal recap, every December
Freemium	Free first, Premium later

4. How do you measure whether a campaign was "time well spent"?
5. What does great look like in the first six months?

WATCH FOR

- Few design openings; most roles are in London, Stockholm and New York.
- Frequent reorgs; podcast cuts in Mar 2026.
- AI and label dependence are the big business risks.

DO AND DON'T

- **Do** use the app first: Wrapped history, Jam, Prompted Playlists.
- **Don't** pitch engagement tricks or misuse the logo in mockups.
